

APPLIED

Installing the Applied Systems Print Client

June 2019

Applied Systems Print Client provides a solution to organizations that want to batch print certificates. To configure the print queue management details, information is located in the *Agency Setup* article, and a *PrintNode* account must be created.

- 1) To get started, [download](#) the *Applied Systems Print Client*.
- 2) Click **Run**.
- 3) Accept the terms and conditions, and then click **Next**.
- 4) Choose an installation location and click **Next**.
Note: You can choose to leave this setting as the default.
- 5) Select a **Start Menu** folder and click **Next**. You can choose to leave this setting as the default or opt not to create the Start Menu folder.
- 6) Choose whether to have desktop icon and click **Next**.
- 7) Select the **checkboxes** for any additional tasks you would like the setup to perform and click **Next**.
- 8) Click **Install** to complete the installation process.
- 9) You are now ready to use the PrintNote client. Click **Finish** to launch Print Client.
